Dear Phil

On behalf of the Australasian Pharmaceutical Science Society (APSA) and the local organizing committee, I am writing to both congratulate you and thank you for the highly professional manner in which you and your staff contributed to the organization of the APSA 2009 Conference. Your continued close involvement in assisting with all aspects of organization, from the very early planning stages through to the actual conduct of the three days of the conference itself was extremely valuable. In particular, we found the suggestions you were able to offer from your previous experience to be most useful to us as 'amateurs' in the process of conference planning. The ability of your group to deal in a timely and responsive way with issues as they arose, ranging from the smallest detail to items requiring significant consideration, was an outstanding feature of the services provided. I must also comment on the excellent underlying administrative systems you have in place to handle finances, abstract submission, and delegate registration and accommodation.

We have already had significant positive feedback about the conference, including a comment from the immediate past president of APSA that it was '..the best we have had in some time..' and ConventionWise is rightly entitled to a share of the kudos generated.

With kind regards

Stephen Aldous
